Recessed Three-Gang TV BOX™

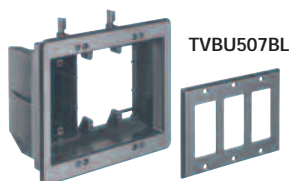

For Old or New Work • One Power, Two Low Voltage Openings

TVBU507
3-gang
TV BOX™

Plugs and Connectors Stay INSIDE this Recessed Box!

Arlington's recessed three-gang TV BOX™ allows you to mount LCD and plasma TVs flush against the wall. Plugs and connectors stay *inside* this recessed box.

Designed for new or old work, TVBU507 is a combo box with power in one side and two low voltage openings for Class 2 wiring.

Secure installation. Good looks. A great finish.

- No wobble! In **retrofit** projects, mounting wings hold the box securely against the wall board when screws are tightened. The box mounts directly to a stud for use in **new construction**.
- Adjusts to fit walls from 1/4" to 1-1/2" thick in retrofit applications
- Fast, easy installation
- Usable with Arlington's SCOOP™ series entrance hoods and plates
- Colors: paintable white trim plate or black

Recessed Three-Gang TV BOX™

Combo Box with One Power, Two Low Voltage • Old & New Work

New Work Installation

1 Attach box to stud.
Note tabs for proper positioning of box for drywall.

2 Install wall board.

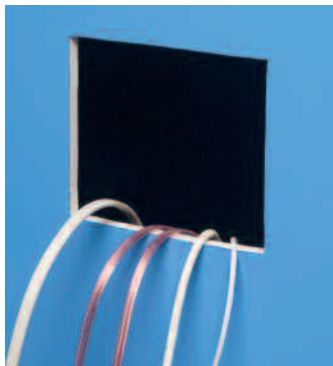

3 Attach paintable trim plate with screws provided.

4 Tighten mounting wing screws to pull the box securely against the wall board.

Installation in Existing Wall

1 Determine box location.
Cut hole. Pull wire and cable(s) through appropriate knockout (connector).

2 Attach trim plate to box.
Install box assembly in opening.

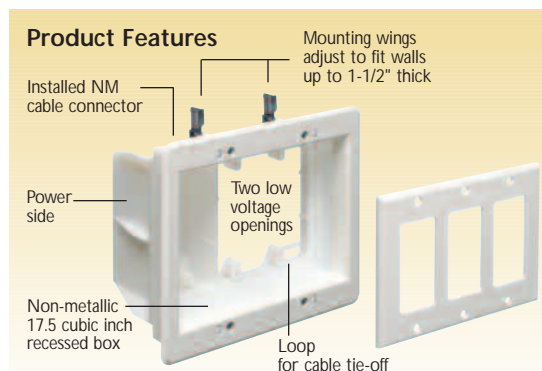

3 Tighten mounting wing screws to pull the box securely against the wall board.

4 Finished installation.
Power in one side; low voltage in two openings.
