Updates

1. Added Mac compatibility. **If you do not use a Mac, this update is not required.**

V3.1.3 build 150919

Date: 2015/09/19

Models Affected

LUM-500-DVR series

Updates

1. Added Mac compatibility. **If you do not use a Mac, this update is not required.**

V3.1.2 build 150811

Date: 2015/08/11

Models Affected

LUM-500-NVR series

Updates

1. Added playback ability to matrix view.
2. Improved substream playback performance in web interface.
3. Fixed a number issues related navigation and playback.
4. Updated a number of graphical icons.
5. Fixed a number of typos in configuration menus.

Known Issues

1. Cannot search for events when recording in continuous mode. User can search log file for motion events from camera.
2. Chrome plug-in currently requires NPAPI interface, which was retired in September 2015.
