No need for a separate power cable

Initiate your entire meeting startup process with one button

WHERE TO USE MASSIO

For Business – Massio is the most cost-effective solution for huddle spaces and small meeting rooms, typically utilized by small groups of 3-4 people to review content or conduct a web conference

For Higher Education – Ideal for small classrooms and breakout spaces where instructors need to control presentation technology directly from the podium

For K-12 / Primary Education – Perfect for schools requiring a combination of rugged design, secure installation and low cost
