

A New Way to Network

Araknis understands the importance of modern, seamless connectivity. Whether it's media streaming, surveillance, teleworking, or file sharing – our professional-grade switches provide fast, reliable network connections for all your devices. In addition to high-speed reliability, your personal integrator can troubleshoot any issues quickly and remotely, ensuring optimal performance at all times. Discover Araknis – the network that works for you.

FAMILIES

•**110 SERIES** This Unmanaged+ 110-series combines the speed and reliability of a standard Gigabit switch with cloud management platform capabilities for remote diagnostics.

•**210 SERIES** If you need Power over Ethernet for several wireless access points or cameras, then opt for a 210 series switch. With Websmart technology and compact options, these switches bring enhanced flexibility to your networking installs.

•**310 SERIES** When your project demands the most powerful solution, there's only one choice – the fully managed 310 switch. Araknis Networks' most robust series, it offers full software management and optional Full-POE for large installations.
