AUTONOMIC

ELAN® INTEGRATION

WITH MIRAGE AUDIO SYSTEM

The Mirage Audio System integration with ELAN enables listeners to efficiently play back their personal music collections in addition to the most popular online streaming music services directly within an ELAN home automation system. Music lovers have direct access to the exclusive TuneBridge® functionality, which allows them to switch sources depending on what's playing, opening up the universe of music with expanded search and discovery features built into to each streaming service. For more advanced browsing capabilities, queue, playlist and favorite management, users have access to control the system through the Mirage Media Controller app for iOS and Android. At a profitable margin enjoyed by the custom channel, the Mirage Audio System is the right solution to increase your bottom line while delivering supreme sound quality into a fully integrated ELAN control system.

MIRAGE
AUDIO SYSTEM
