Luma Surveillance™ 300-Series Analog Camera

If you want crystal-clear, 720p video resolution, turn to our Luma Surveillance™ 300-Series. These cameras are more than just a pretty picture. When paired with our new Luma DVRs, they become the ultimate setup.

HD QUALITY OVER ANALOG

Thanks to HD-TVI technology, you get sharp, 720p resolution every single time. These cameras even support HD-TVI or traditional analog up to 960H – the choice is yours!

BUILT-IN EXTENSION MOUNT

Extension mount shell housings help seal out water and serve as handy wire management when completing installs.

STRIKING NIGHT VISION

Luma 300-Series cameras provide up to 65 ft. of IR, which limits overexposure and helps illuminate subjects at night.
