METAL PRODUCTS GROUP

T3-PC1D

DESCRIPTION

The T3-PC1D family of table boxes are perfect for single users, where convenient access to network drops, AC power sources and video/audio displays is required. The small footprint provides an unobtrusive complement to any décor.

The T3-PC1D allows the user to connect their Laptop or PC to an external video display and house sound system as well as “link up” with network and phone lines. The T3-PC1D has an HDMI pass through.

The keystone areas can be populated with a variety of connectors including network, telephone, RCA or mini stereo audio, push buttons and much more to suit unlimited applications. Alternate style snap in keystone connectors and blanks are available separately for either model. Both models can be ordered with either an AC power cord or short leads for installations that require AC hardwiring ("HW" models).

These stylish table boxes fit a 3 1/2" round opening and are easily installed using a standard hole saw.

Round and square covers are available in black, brass or aluminum to blend with the decor.

The T3-PC1D includes:

- 1 AC Power outlet with 9' Cord and plug (non HW models)
- 1 HD15 female to female Computer Video Connector
- 1 Stereo mini jack with 3-pin screw terminal plug
- 1 RJ-45 pass through connector (pre-mounted)
- 1 HDMI female to female pass through connector (pre-mounted)

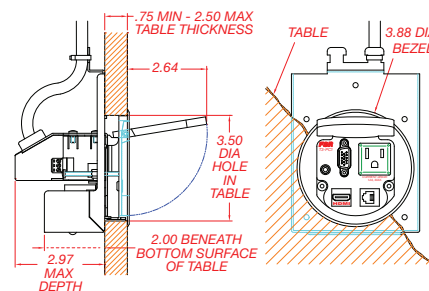

The T3-PC1D can be installed in tables 3/4" to 2 1/2" thick. They are shipped with 3" installation screws and the components listed above

APPLICATIONS

- Desks
