THE HEOS APP.

A SIMPLE, EASY TO USE INTERFACE

Stream from your favorite online music services, or listen to tracks directly from your phone, tablet or USB drives. With HEOS, you have all the options you need and all the access you want.

ROOMS: Name each HEOS player according to the room where it is located. Group rooms together to play the same song in party mode. Separate rooms to play a different song in each of them.

NOW PLAYING: Instantly control what is playing in every room, view cover art or check the queue for what is coming up next. Create and save playlists.

*Availability of music services may vary by region. Not all services may be available at time of purchase. Some services may be added or discontinued from time to time based on decisions of the music service providers or others. Visit www.HEOSbyDenon.com/music for announcements and details.

KEY FEATURES:

The HEOS Link adds HEOS multi-room audio functionality to any existing audio system or powered speakers. Enjoy streaming music from the cloud or local files using the intuitive HEOS app for iOS, Android, and Kindle Fire Devices.

With high quality stereo analog, digital coax, and optical outputs, as well as a 12V trigger and Denon® IR control output, the HEOS Link is easily incorporated into whatever system you have.
