

GRILL FOR RECTANGULAR 4X5 OPENING (GR-45)

INSTALLATION INSTRUCTIONS

This grill matches the HiFlo Lite Fan Units and is perfect for mating with the fan units for added airflow or for simply increasing natural airflow.

Installation

1. Determine the location for the grill ensuring that there will not be any obstructions inside the cabinet.
2. Cut a maximum hole size of 4" W x 3.5" H (10cm x 9cm) opening in the cabinet - using a jig saw would be most appropriate.
3. Using the grill as a template, mark the 4 screw holes and pre-drill those with a small drill bit (smaller than the screws).
4. Screw the grill to the cabinet with the included color matching screws.

Unit Not Working?

Do not Return Damaged or Defective Products to Point of Purchase. If the unit arrived non-functional or damaged, we will resolve the issue quickly and hassle-free. Proof of Purchase may be required. Contact us on the web at; www.coolcomponents.com/warranty
