

Let us
entertain
you

The new in-ceiling loudspeakers in the 400 Custom series offer many options and a great deal of freedom when it comes to positioning and configuring your loudspeaker system in the living room, home cinema or in other parts of the house. Technically, they are right at home in the C 400 series, as the loudspeakers are equipped with DTT. They have pivoting tweeters and use sophisticated, high-quality materials like Kevlar® and titanium.
