500 SERIES

POE | 16 CH | 2U | OvrC enabled | Onvif S

Luma Surveillance™ 500-Series 16-Channel NVR (PoE | 2U)

Equipped with Power over Ethernet, 2 TB pre-installed internal storage, and support of 16 IP cameras with a total bitrate of 100 Mbps, this NVR makes it easy to check on what matters.

INTUITIVE USER INTERFACE & DEDICATED APP

Rewind and fast forward, pause, take a snapshot, playback, and zoom are all easily controlled with a click on our intuitive user interface when viewed in Internet Explorer or Safari. If a tap or a swipe is more your comfort zone, our Luma app, built for iOS or Android mobile devices, provides peace of mind as you're able to check on what matters – anytime, anywhere.

RACK-MOUNTABLE

Our slender NVR is rack-mountable so you can keep things neat and tucked out of the way.

CONTROL SYSTEM INTEGRATION

With our control partners, we've created IR/RS232/IP drivers to control the NVR's on-screen GUI through the HDMI output. If you're looking for video streaming to control systems, we've got you covered. Compatible with Control 4, Crestron, Elan g! & URC.

EASY INSTALL AND SETUP

Set up is easy with our Luma utility. The utility can be accessed on your PC to view the NVR User Interface via web browser.
