CERTIFIED TO CSA C22.2 NO.42, C22.2 NO.42.1, C22.2 NO.85	

**Keeps Flat Panels Flat**

This in-wall unit makes the most of limited space behind thin TVs. Its recessed design makes room for bulky plugs and connectors, meaning flat panels can stay flush against the wall – just how you want them.

**Provides Power**

Replace regular outlets with this in-wall receptacle to experience power in a much smarter form factor. Power a TV and cable box or BluRay player – without having anything stick out away from the wall.

LIMITED LIFETIME WARRANTY

This WattBox™ product has a Limited Lifetime Warranty. This warranty includes parts and labor repairs on all components found to be defective in material or workmanship under normal conditions of use. This warranty shall not apply to products which have been abused, modified or disassembled. Products to be repaired under this warranty must be returned to SnapAV or a designated service center with prior notification and an assigned return authorization number (RA).
